BIOTECHNOLOGY IN NORTH INDIA

Biotechnology – The ultimate necessity of human's existence is a concept comprising of several complex procedures to modify micro-organisms and biological system that results in advanced products and solutions that supports human existence. Depending upon necessity bio-products are developed and used that act as a life support system for mankind. It extends to several important fields like Bio engineering, Biomedical engineering, Molecular engineering and bio-manufacturing. Advancement of Science and technology with concise efforts from Government and Private organization in recent years seems to have yielded fruitful results. A substantial growth has been seen in this field which resulted in indigenously developed and manufactured Rotavirus in 2015. There are other several key achievements which were outputs of developing world-class facility for manufacturing, spreading awareness and encouraging research professionals to look beyond their scale and develop an outstanding product. The common cause have been richly supported by educational institutes well handled by concerned authorities have also created life changing opportunities and career growth. It gradually became a win-win situation for all and its unlimited opportunities within a country like India in regards to science, agriculture, microbiology, animal husbandry, genetics, pharmaceuticals and thermodynamics have seen a new sunrise.

Your Experience Includes

-  Domestic Airfare
-  Train Tickets
-  Surface Transportation
-  Monuments Entry Charges
-  4 star Accommodation on twin sharing basis
-  Meal plan as per the itinerary
02 bottles of mineral water per person/per day
-  English Speaking Guide / Expert

Itinerary

Day 01: Delhi

Meet and Greet by our tour director at the airport. Check into the hotel, relax and enjoy a beautiful evening in Delhi.

Day 02: Delhi

The beautiful city of Delhi is a perfect mix of ancient history and current advancements. The capital city has a cluster of industries and institutions for learning, practicing and manufacturing life saving products to support human existence. Attend an interactive session about Biotechnology in University. After university visit, enjoy your evening by shopping from local street vendors and spending quality time here.

Later return to hotel and enjoy stay.

Day 03: Delhi

The next day visit a factory for learning and digging deep into the practical aspects of Bioscience and microbiology. After the visit take a look around the city, supported by our tour director. The city has some amazing places to explore like the historic Qutab Minar, iconic India Gate and the majestic Red Fort, standing tall to welcome you to explore its beauty and history. After sightseeing in Delhi, enjoy your stay in the city.

Day 04: Delhi - Gurgaon

Proceed for a factory visit in Gurgaon, which will help you to imprint knowledge and explore various territories of Biotechnology.

After an exceptional learning program, move back to hotel and enjoy your pleasant stay in Gurgaon.

Day 05: Chandigarh

Travel to Chandigarh by train, the city making significant growth in manufacturing and advance technology. From the railway station, proceed to hotel, check-in and enjoy your stay for the rest of the day.

Day 06: Chandigarh to Mohali

Proceed for a factory visit at a renowned Bio-tech industry and hear from experts and resource person, to have a better understanding of their product development life cycle and their goal to achieve. Chandigarh is also a tourist paradise, as it has

the wonderful Rock Garden, where sculptures are made up of rock beautifully put together to create lively structures. Also pay a visit to the museum of science and ponder up on wonderful collections and live designs. After an amazing sightseeing, return back to the hotel and enjoy your pleasant stay at the hotel.

Day 07: Chandigarh to Mohali

Visit a factory for experiential learning and learn about their expertise and development procedures. Gain a thorough understanding of complex methodologies and a brief walkthrough of recent developments and procedures. Take a guided tour of the city and enjoy its beauty, taste amazing food and buy local artifacts. Later in the day enjoy your stay in the city.

Day 08: Chandigarh to Pune

Take a flight to Pune. Move and check into hotel and enjoy your pleasant stay for the rest of the day in the city.

Day 09: Pune

Pune is growing into an industrial capital and has been fairly successful in attracting foreign investments and valuable talents. With high class infrastructure and advancements in technology, the biotech industry is blossoming and producing fruitful results. Visit a pioneering factory and learn from its mentors and resource persons. Later in the day move back to hotel and enjoy your stay.

Day 10: Pune

Proceed for a factory visit in Pune to throw light on intricacies and complex protocols involved in this sector. After the industrial visit move back to hotel and enjoy your stay.

Day 11: Pune- Delhi

Board a flight and fly back to Delhi. Then transfer to Agra by coach. Check into hotel and enjoy a pleasant stay for the day.

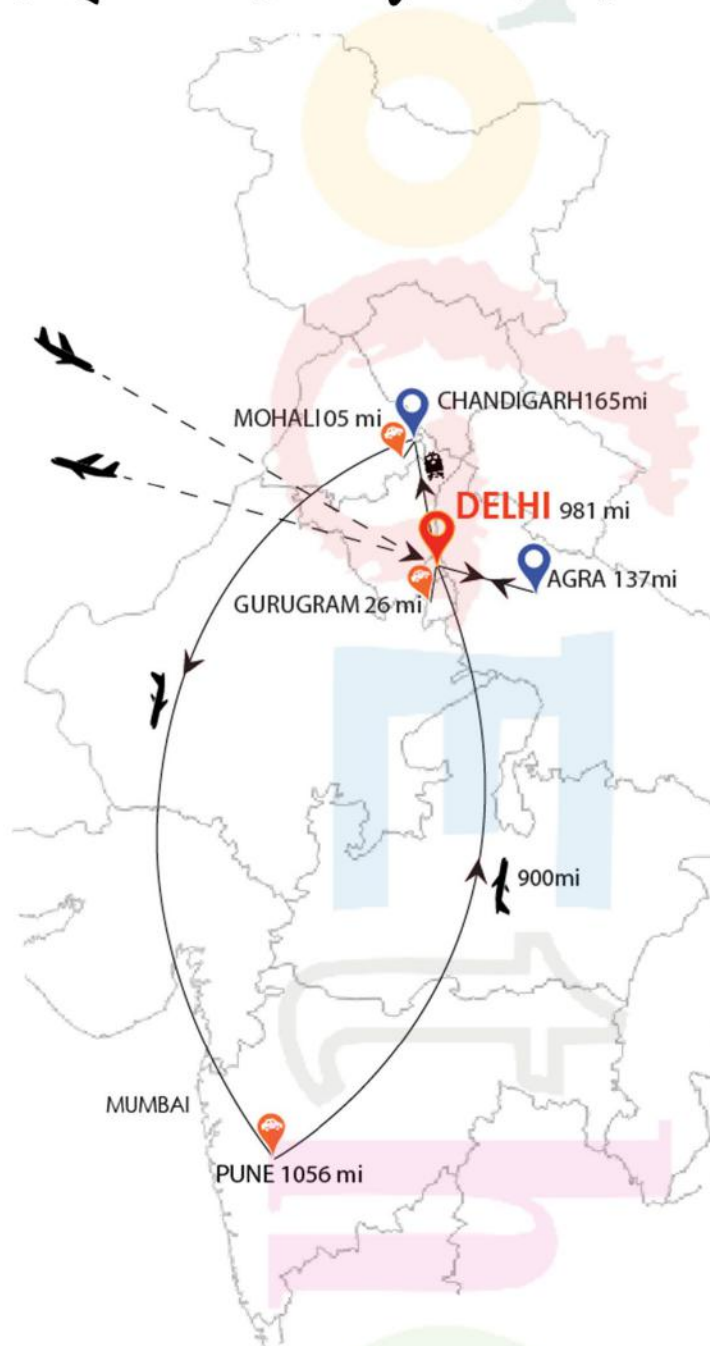

Day 12: Agra

Agra is a city in Northern India and one of the prominent locations for tourists and researchers to explore the city's amazing architectural marvels and breath taking views. Visit the iconic monument of love, Taj Mahal, the 7th Wonder of the World, which represents a piece of brilliance and beauty of excellent architecture. Also visit gigantic Agra Fort and ponder upon its enormous structure and beauty. Later spend the rest of the day in Agra.

Day 13: Agra to Delhi

Proceed back to Delhi fly back to your home town with cherished memories. Conclude your journey of experiential learning.

Route Plan

Cost Includes:

1. Domestic airfare
2. Train tickets
3. Surface transportation
4. Monuments entry charges
5. 4 Star Accommodation on twin sharing basis
6. Meal plan as per the itinerary
7. 02 bottles of mineral water per person/per day
8. English speaking guide / Expert

Cost Excludes:

1. Public transportation for any personal trips.
2. Passport/visa assistance
3. Air tickets from your hometown
4. Personal expenses
5. Excess baggage charges
6. Tips
